Yesterday was an unlucky day for No. 39, C. and O. yard engine. Early in the afternoon it was derailed in the East End by a coal pile near the Pulley Works sliding in on the track, and later on, while sliding a dining-car at the West End yards near the Depot, a rail spread or turned, throwing it off the track into a cinder pile almost on its side, badly damaging the engine. It required the wrecking crew to put it back on the track. No one was hurt.

### Demand of 'Squire Powell B. Owens of This County

A dispatch from Dover says, carrying out threats made in letters, sends shot Powell B. Owens's fine saddle horse, valued at \$200, and wounded two others. A number of his sheep give indications of having been poisoned.

During the past five weeks 'Squire Powell B. ## SECOND ATTEMPT

### Burley Tobacco Growers Start Anew in Campaign to Raise Capital

Another attempt will be made this year by the Burley Tobacco Growers Company to raise a capital of \$1,500,000 from the growers and State Banks to handle the coming season's crop.

This is the plan proposed at Tuesday's meeting of the Burley Tobacco Growers Company at Lexington.

According to President Hawkins there are in the white burley district about 25,000 tobacco growers. One-half of them, he says, are able to subscribe in cash for \$100 worth of the stock, which would be \$1,250,000 of the necessary fund raised, and the remainder would either be subscribed in money or tobacco.

The authorized capital of the Burley Tobacco Company is \$2,000,000. The stock is divided into common and preferred. The preferred will be offered first to the farmers, and the common to any purchaser seeking an investment.

The officers of the Company will know by July 1st whether or not enough of the stock has been sold to insure success this year, and the contract which will be offered to the growers will expire by November 1st.

A Ways and Means Committee, composed of President Hawkins, J. R. Bascom of Bath, William Adams of Harrison, C. B. Sullivan of Woodford and Bailey Berrie of Fayette, was appointed to manage and devise the plan for the campaign of the agents.

The amount of capital stock for each county will be prorated in accordance with the amount of tobacco grown in that county.
